
nostrifikace zahraničních dokumentů

Any students requesting the official and certified translations of their documents for the purposes of "nostrifikace," or any other translations of such sorts, are advised to go on to www.itpunion.org/spip , the website of the International Federation of Interpreters and Translators. This website is offered in English version as well and offers the database of translators with their specialization. Good luck with your endeavour, KJP- the Foreign Language Department
